

Accelerate Cloud Migration and Adoption

Integrate cloud technology into existing organization infrastructure. We provide the expertise and independence you need to drive effective digital transformation for your business.

Taking Cloud To The Next Level

Successfully adopting cloud technology into your organization's infrastructure takes more than a good plan—you need people who know exactly how to execute on that plan efficiently and in a manner that minimizes risk to your business-critical operations. AIM is here to serve as your trusted advisor, helping guide your cloud migration and workflow effort. Our experts can review your cloud strategy and then perform a deeper analysis to model what the transition process will entail for both your technology and application workloads.

We'll also determine what potential impact the migration process might have on your business processes, and what steps you can take to smooth your transition to the cloud.

Benefits of Cloud Migration and Optimization

- ▽ **Assessment of your cloud architecture and application workload requirements**
- ▽ **Re-tooling your applications and services to support working in the cloud**
- ▽ **Training your IT staff to run and support your new cloud-based applications**
- ▽ **Updating and documenting service level agreements and support processes running in the cloud**

Results-driven approach to technology solutions and services
